

6ft Wide Bespoke Kings Bromley Cedar Greenhouse

External dwarf wall measurements

- Single skinned wall is adequate for the greenhouse to sit on.
- Any greenhouse larger than 10ft in length, we would recommend a pillar in the centre to increase strength
- We would not recommend a double skinned wall for a 6ft wide greenhouse as it would reduce internal space, however it is entirely up to you!
- Dwarf wall must be flat and square

Dwarf wall height at doorway 850mm
