## Greenhouse Staging Assembly Instructions

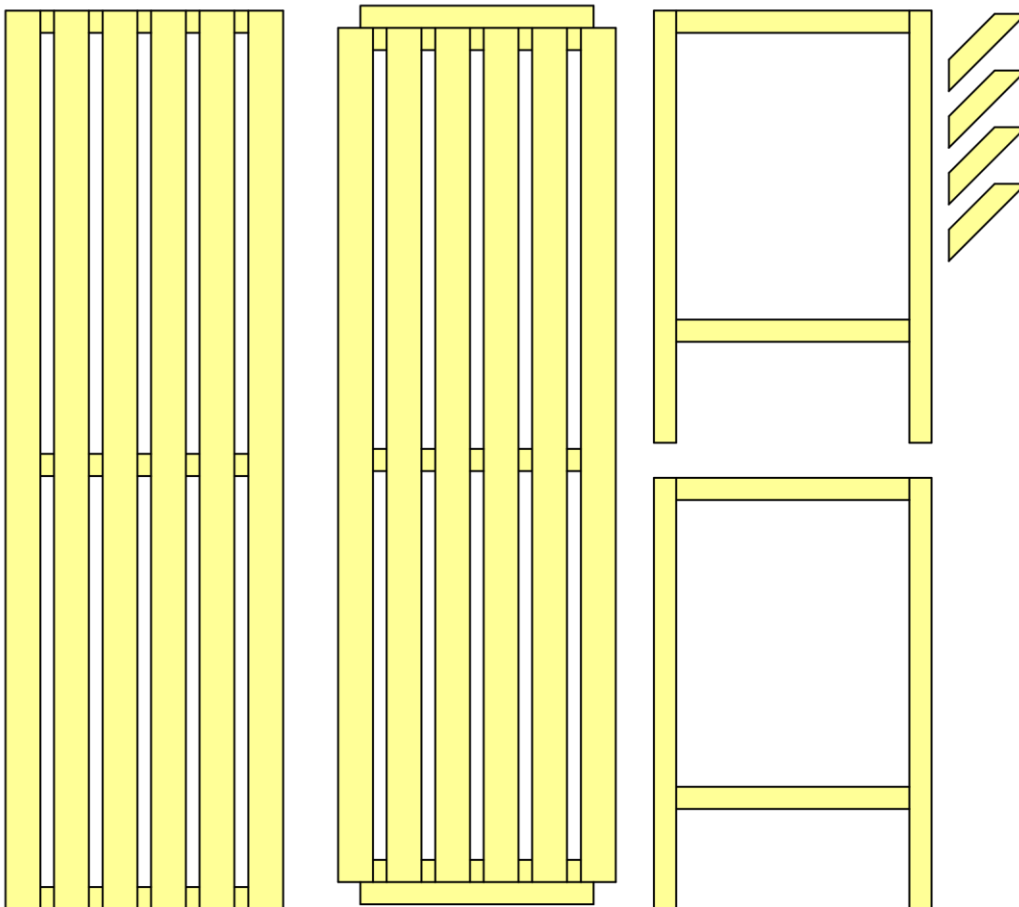

A set of staging contains:

1 top shelf

1 bottom shelf

2 leg sections

4 staging brackets

4 x 80mm Pozi Drive screws  
8 x 50mm Pozi Drive screws

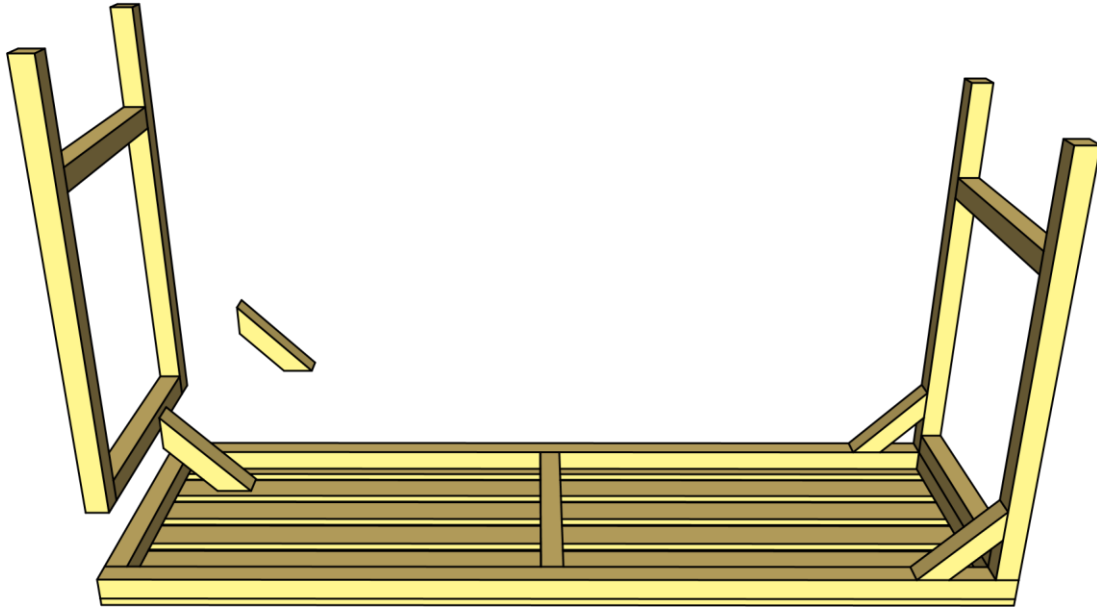

For the assembly you will need: An impact driver/ screw driver with a Pozi Drive 2 bit

To assemble the staging, turn the top shelf upside down

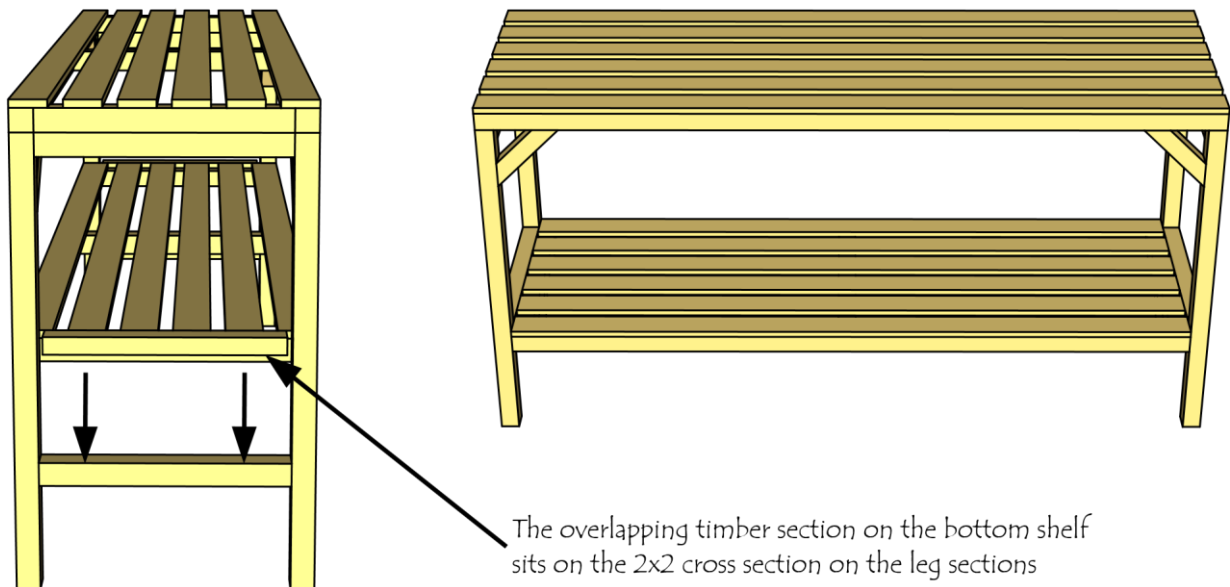

The staging legs butt onto the very end of the top shelf as shown below:

Insert 2x80mm screws into the pilot holes in the leg sections and fasten tightly to the top shelf

Position the staging brackets as below, and insert 2x60mm screws into the pilot holes in the brackets, then fasten each bracket to the top shelf and then to the leg section

Once each bracket is secure, turn the unit upright and position the bottom shelf like so:

The overlapping timber section on the bottom shelf sits on the 2x2 cross section on the leg sections
